

EXTREMELY TOUGH STUCCO COATINGS APPLIED ON-SITE OR IN FACTORY!

Versatile

- Hy-Power's water-based acrylic stucco coatings for block, brick, flat metal panels and corrugated siding
- Existing walls can be sheathed with cement board prior to receiving a stucco finish
- Coating can be factory-applied to composite wall panels and other external wall systems for on-site installation
- Available in a wide range of textures from fine to heavy stucco
- Available in absolutely any color, or finish, guaranteed for up to 10 years

Durable

- Hy-Power's stucco coatings are tough enough to resist bumps, knocks, and scrapes – ideal for high traffic areas
- Our Graffiti Shield[®], used as a top coat, ensures that stucco finishes are mar resistant and easily cleaned!
